DETAILED ACTION

Allowable Subject Matter

Claims 13, 17, 20, and 24 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a data recovery, wherein said recovery circuit generates a clock out clock signal having rising edges approximately at the center of said first plurality of data tokens, said data recovery circuit further comprising a second flip flop receiving a IS NEW DATA signal indicating whether present data token generated by said multiplexer is not equal to a data sample presently received on said analog signal, said second flip flop being clocked by a falling edge of said clock out clock signal such that said IS NEW DATA signal provided on said falling edge as a select signal for said multiplexer; and a delay block receiving said clock-out clock signal and delaying said clock-out clock signal by an amount equaling propagation delays caused by said second flip flop and said multiplexer, said data recovery circuit providing the output of said delay block and the output of said multiplexer as said sequence of data tokens and a corresponding clock signal respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
